I am a Front-End Developer who writes clean and well-documented code. I Enjoy learning new skills and tools that keep on challenging myself. I help designers, small agencies and businesses bring their ideas to life. Along with my friends Figma, VS Code, and coffee I turn your requirements into a professional website, on time and on budget.

SKILLS

Programming Languages	Java, JavaScript, HTML, CSS, SQL
Web Technologies	WordPress, Node.JS, Git
Frameworks & Libraries	jQuery, Bootstrap, Express, React, Spring Boot
Databases	MongoDB, MySQL
Software & IDEs	VS Code, Local, Eclipse, Figma, Affinity Designer, Illustrator, Photoshop
Languages	English, Spanish

EXPERIENCE

Prismart Graphic, LLC
Jul 2020 – Present

Web Developer (Owner-Operator)
- Design, develop and deploy responsive, functional, and easy-to-use web sites utilizing WordPress with custom themes, plugins, Elementor page-builder, and Advanced Custom Fields
- Create E-Commerce sites leveraging WooCommerce platform.
- Convert comprehensive layouts and wireframes into working HTML pages
- Ensure consistent style across platforms and browsers utilizing CSS/SCSS
- Interact with RESTFUL APIs and formats (JSON, XML)
- Work with debugging tools like Chrome Inspector and Firebug.
- Promote and market services to find new clients, and further submit proposals, invoices and collect payments

CMH United Corp
Feb 2006 – Jul 2020

Senior International Account Executive
- Provide ongoing account management, business consulting and product support to overseas customers
- Manage and train new sales representatives on company offerings, client portfolio, Microsoft Office Suite and other administrative or operational software
- Responsible for developing and further maintaining company websites and promotional landing pages to generate new leads leveraging APIs to integrate each landing page with Zoho CRM and Google Ads
